DETAILED ACTION

1. This Office Action is a response to communication dated 10/04/04. Claims 1, 3-24 and 26-49 are pending in the application.

Drawings

2. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the "new multi-protocol label switching label" and "a label indicator" of the claimed "communication message" as recited in claims 47-49 must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner,

Art Unit: 2666

the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Objections

3. Claim 18 is objected to because of the following informalities: Lines 1-2, "claim 19" should read –claim 17--. Appropriate correction is required.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

4. Claims 47-49 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. "A communication message" is a functional descriptive material per se; thus, it is non-statutory. *Warmerdam, 33 F.3d at 1360, 31 USPQ2d at 1759.*

Allowable Subject Matter

5. Claims 1, 3-24, 26-46 are allowed.
6. The following is an examiner's statement of reasons for allowance: The prior art of Goyal, considered individually or in combination, fails to fairly show or suggest the claimed invention in a manner as recited in claims 1, 3-24 and 26-46 taken in view of the Applicants' outstanding arguments in the response filed 10/04/04.

Art Unit: 2666

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
